

# Capacit-e™

## A new direction in mental health e-learning

After nearly a decade of helping organisations to work smarter and support people with mental health conditions, MHCC is now thrilled to be joining the e-learning revolution.

We're working towards building a more e-capable community sector with [Capacit-e™ mental health e-learning](#), our new range of e-learning products.

### Who is Capacit-e For?

Capacit-e isn't just for organisations or mental health workers. People with experience of mental health conditions, friends, family members, colleagues and others with an interest in mental health will find lots to help them understand and support a person's recovery journey.

MHCC currently developing a range of new e-learning products including:

- the mental health recovery suite
- trauma-informed care and practice
- mental health peer work
- organisation induction products

Our Capacit-e™ range will continue to expand in response to developments in research, evolving sector needs, policy and legislative reform, and new practice approaches.

### Get the perfect fit with Capacit-e™

Capacit-e allows you to put your stamp on course products with three levels of brand customisation.

Check out our interactive [Brand Customisation Guide](#) or visit:
