Funded by the National  
Disability Insurance Agency.

Funded by the NDIS through the Information,  
Linkages and Capacity Building (ILC) -  
National Readiness Grants.

## www.reimagine.today - Improving NDIS Accessibility

### What is reimagine.today?

reimagine.today is a free online resource supporting people living with a mental health condition to access NDIS services.

Launched in 2017, the reimagine.today website was a partnership between MHCC and the National Disability Insurance Agency (NDIA) and was designed in collaboration with people with lived experience of mental health conditions. reimagine.today provides step-by-step support for accessing the NDIS with workbooks, activities and resources, underpinned by principles of recovery and trauma-informed care.

### NDIS Access for Diverse Communities

Following strong support from the community and demand for the resource, MHCC is starting a new stage in the development of reimagine.today to make sure it remains highly accessible to a diverse range of people. This has been funded through an ILC National Readiness grant from the NDIA.

MHCC aims to improve NDIS access among Aboriginal and Torres Strait Islanders, people from culturally and linguistically diverse backgrounds, LGBTIQ communities and rural and remote communities. This will require national input from diverse communities to develop new parts of the reimagine.today website.

### Developing National Networks

In addition to enhancing accessibility for diverse communities, MHCC aims to build national networks to promote the reimagine.today resource. These networks will support the further development of priority skill-building areas of the website to improve general access to the NDIS for people with lived experience of mental health conditions.

These national networks will be run by peer leaders who will work with their communities to share information about reimagine.today and to forge relationships with health services, communities, community mental health services and individuals.

### We need your help!

Working with MHCC on this project will bring your knowledge into the process of improving NDIS access for a diverse range of people, and for all people living with mental health conditions who would benefit from NDIS support. It will also build new working relationships to inform future projects.

### Project outcomes

**Working with Diverse Communities:** Website changes to improve access and relevance for Aboriginal and Torres Strait Islanders, people from culturally and linguistically diverse backgrounds, LGBTIQ communities and rural and remote communities

**National Networks:** Building a national network of peers to improve NDIS access for all people living with mental health conditions
