

## Expression of Interest

Lived experience  
collaborator  
(substance use)

- The UTS School of Nursing & Midwifery is seeking a person with lived experience of substance use to be part of a project team commencing a study into curriculum co-design and its potential to enhance healthcare students' capacity for empathy.
- You will be working with other lived experience researchers from under-represented health groups and training will be provided.
- The lived experience collaborator will be employed at HEW6 rate (\$62.32/hr) for a total of 13 hours.
- The role will entail attending meetings to co-analyse papers and co-author a draft publication.
- Ideally the collaborator will have an interest in empathy in healthcare, and an interest in academic writing.

To find out more about being a lived experience collaborator, please contact Dr Natalie Cutler on E: [natalie.cutler@uts.edu.au](mailto:natalie.cutler@uts.edu.au) by Mon 20 Sept 2021
