

National Surveys on Supervision & Support for Consumer Lived Experience Peer Workers

Project lead: Paula Hanlon (Consumer Peer worker in NSW since 1998)

These National surveys are a project that is part of the Yale *Lived Experience Transformational LEADership (LETsLEAD) Academy*. It is sponsored and in partnership with Yale University's Program for Recovery and Community Health (PRCH), National Mental Health Consumer & Carer Forum (NMHCCF), and Mental Health Lived Experience Engagement Network (MHLEEN).

Participation is voluntary and confidential. The report from these surveys will be found on the websites for each of the partner organisations and will support a publication, adding to the evidence on supervision and support for the consumer lived experience peer workforce.

There are 3 surveys, one for consumer peer workers, supervisors, and managers. You may hold more than one of these positions. Your feedback in completing the surveys relevant to you is much appreciated. Please select the link below to the survey/s.

Qualtrics link for the survey for consumer peer workers:
