

Carers of Forensic and Corrections Patients Network

If you're a carer or family member of a loved one who is a forensic and corrections patient, you're invited to join our Network!

The Carers of Forensic and Corrections Patients Network is a series of monthly online meetings with family members and carers that have a loved one in the forensic and justice system.

This project is a collaboration with Erika Ballance, Family & Carer Consultant, from the Justice Health and Forensic Mental Health Network.

Anyone who has a loved one in the forensic and justice system can come to our online meeting, where we:

- Facilitate mutual sharing and support
- Assist carers with their concerns
- Advocate for systemic change with carers
- Invite guest speakers to present on topics important for carers
- And many other activities!

For more information, contact MHCN Policy Officer Prasheela Karan:
